REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Claims 1-4 are allowable because the prior art of record fails to teach, in combination with other claim limitations, a digital telephone system comprising: ... a remote-connection central processing unit responsive to a received connection request signal by providing an assignment signal indicating which one of the slots and RF channels is to be used for the respective information signal, wherein the central processing unit maintains a memory of which slots and which RF channels are so assigned and consults said memory upon receipt of the connection request signal and then provides the assignment signal that establishes the utilization of one of the slots at one of the RF channels that is not assigned to another information signal, and wherein the central processing unit communicates through said transmitter a control signal representative of the assigned time slot and RF channel to the subscriber unit to which the communication request is addressed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ken Vanderpuye whose telephone number is (703) 308-7828.
